Education

Computer Science   Mar 2018   Jun 2024

Yaba College of Technology, Lagos

Shortly after I finish my HND, I will be looking forward to start a full-time job as an Software-Engineer. With my passion to learn intensively I'm finding myself to grow as a developer regardless the surroundings.

Profile

I think honesty has a big impact on our daily lives! I'm a front-end developer with no working experience yet, looking forward in landing my first job for better improvement and credibility on my projects. As a hardworking individual I can grow fast and improve personally and showcasing my talent in creating exceptional projects and as well as gaining more experience as a software engineer.

Project

Seccon – Security Consultant website

- ➢ Offers Business Consulting that provides a complex administrative solution for capital events globally.
- ➢ Offers a security program that contributes to the bottom line of the organization.
